

Glencore Xstrata PLC (South Africa): Index Treatment FTSE/JSE Africa Index Series

13 November 2013

Glencore Xstrata PLC (South Africa, JE00B4T3BW64, BG6MV64) listed on the JSE Main Board at the start of business today.

At market close today Glencore Xstrata PLC had a closing price of R53.87 and 13,263,405,466 listed instruments.

As an inward listing listed after December 2011, Glencore Xstrata PLC is treated as foreign for index purposes and its free float is thus determined from the size on the SA register. Using data provided by Strate at close of business today, FTSE/JSE calculates a free float that does not meet the minimum requirement of 5% for index inclusion. Based on Ground Rule 4.3.3 a company with a free float of 5% or below is not eligible for inclusion in the FTSE/JSE Africa Index Series and will not be considered for Fast Entry (Ground Rule 6.3.1).

As per rule 6.3.4, new listings will not be evaluated at quarterly index reviews until they have been listed for 20 trading days. As such, Glencore Xstrata will not be eligible for index inclusion at the December 2013 review, regardless of the proportion of its scrip on the local register. Glencore Xstrata's index eligibility will next be tested at the March 2014 index review.

Any further information regarding index treatment will be communicated to the market allowing appropriate time and notice.
