

## **CDM REGRESSION TESTING INFORMATION SHEET – TRADING AND CLEARING 2025 RELEASE D**

This testing guide is intended to remind market participants of the key technical details and requirements for regression testing. The intention of the regression test cycles is for:

- Market participants to ensure all trading, post trade functionality and market data publication works as expected.
- Clients to ensure sufficient testing is conducted in line with BAU activities.

### **Trading Members, Software Providers, and Information Subscribers**

#### **Customer Test Environment (CTS) Times**

- The Customer Test Environment (CTS) is available from 09h30 until 23h00 for clients to perform regression testing (all trading and deal management activity).
- **End of day** will be run in the mornings of the following day.

#### **Connectivity Details**

The Customer Test Environment (CTS) Nutron connectivity details are as follows:

**IP Address:** 196.216.153.101

**Ports:** 2210

### **Clearing Members**

#### **Clearing Member Environment Times**

- The Clearing Member Environment (Parallel) will be available from 09h30 until 16h00 for clearing members to perform regression testing (all BAU items).
- End of Day will be run daily at 16h00 and balancing reports will be placed on IDP.

#### **Connectivity Details**

The Clearing Member Environment connectivity details are as follows:

**IP Address:** 196.216.153.41

**Ports:** 2210

### **Sign-off details**

#### **Trading Members**

- Upon completion of testing sign off via email must be provided to [commodities@jse.co.za](mailto:commodities@jse.co.za)

#### **Clearing members**

- Upon completion of testing sign off via email must be provided to [ClearOps@jse.co.za](mailto:ClearOps@jse.co.za)

### CTS Code Drop and Data Refresh Dates

Clients are advised that during a test cycle, the Customer Test Environment (CTS) will be upgraded to the new code base and the Production code base will not be available during the test cycles.

### Clearing Member Environment Code Drop and Data Refresh Dates

Clients are advised that during the test cycle, the Clearing Member Environment will be upgraded to the new code base and production data restore will take place on 31 March 2025 with data from EOD on Friday, 28 March 2025. Please ensure that your systems data is refreshed and ready for balancing to commence before Wednesday, 2 April 2025.
