EQM | JSE MAINFRAME MIGRATION (BDA) – 6 FEBRUARY FEEDBACK AND 20 FEBRUARY MANDATORY DRESS REHEARSAL

Thank you for your participation in the successful BDA Mainframe Migration Dress Rehearsal (DR) on 6 February 2021, which enabled us to achieve:

- Connectivity and functional testing conducted by the 31 members that participated;
- Successful testing of various BDA Upload functions;
- Successful download of dissemination files from the mainframe;
- Recycling of members LU's and password resets;
- Re-spooling of BDA reports (ERD);
- Test message flows between BDA and ECS;
- Test message flow between JSE and Strate;
- Transfer of BDA dissemination files to IDP.

We noted the below during the DR:

- A potential issue with uploading concurrent data files to the mainframe;
- Members not testing their key stroke emulation software (screen scrapping;
- Insufficient testing from member branches;
- Printing to remote printers.

Please take note of the final Dress Rehearsal scheduled for Saturday, 20 February 2021 that requires full member and branch participation.

The attached Dress Rehearsal document provides the timeline for member testing activities as well as mandatory participation from branch offices and the coordinated test to cater for brokers and software providers to upload files to the JSE mainframe simultaneously. **Kindly confirm participation to Client Service Centre together with participant contact details.**

We appreciate your support in the Mainframe Dress Rehearsals.

Markets / Services:

JSE Equity Market
JSE Broker Deal Accounting (BDA)

Environment(s):

Production
