Date: 24 March 2026

Name and Surname: Matthias Kempgen
Designation: Chief Information & Operating Officer – JSE Clear

BOND CCP AND NUTRON REPO REFORM PROJECT – RELEASE OF UPDATED CODE TO THE CUSTOMER TEST SERVICE (CTS) ENVIRONMENT

Further to [Service Hotline 030/2026](#) issued on 6 March 2026, please be advised that updated code for the Bond CCP and Nutron Repo Reform project was deployed to the Customer Test Service (CTS) environment on 23 March 2026.

This update introduces optimizations to the Instrument and Deals data downloads to address timeouts experienced when retrieving these data sets via the API.

In addition, this deployment also resolves the following trading front-end defects.

Reference ID	Description of issue
19202	The execution venue field is currently blank for both cleared and noncleared IRC trades.
21601	The External Exchange Trade ID column name is not shown in the unsettled view.

The updated Nutron front-end version 05237 is available on [Nutron API Files | JSE Client Portal](#)
