### MARKET DEPTH INCREASE ON WEAT CONTRACTS TO 18

With reference to [Service Hotline 034/2024](#), the JSE would like to inform market participants of its decision to further increase the order book market depth on Wheat (WEAT) from the current depth of 9 to 18. As a result, market participants will be in a better position to assess their pricing positions on the order book even in times of increased volatility.

This will be effective in test environments effective 9 April 2024 and production on 10 April 2024.

The JSE will monitor the impact of this market change on a continual basis to ensure there is as little disruption as possible to the market.
