

SERVICE HOTLINE

Number: 053/2026
Date: 13 April 2026

Name and Surname: Anelisa Matutu
Designation: Head - Commodity Derivatives Market

CDM | TRADING SYSTEM RELEASE 4.5 B

Further to service hotline [Service Hotline 013/2026](#), the JSE would like to inform you of an additional update to the current production code on the Commodity Derivatives Trading system. This update addresses an ad hoc scenario affecting Automated Trading Solutions (ATS), where split/spread orders match the implied chain, resulting in incorrect updates being communicated for partially filled splits/spreads orders.

To address the issue, an update has been deployed to the CTS environment, and ATS users are encouraged to test the solution during the period from **Monday, 13 April to Wednesday, 29 April 2026**. The confirmed production **go-live** date is scheduled for **Monday, 04 May 2026**.

Summary of key test information

- Customer Test Service (CTS) environment for client testing is available between 09h30 until 23h00 daily.
- Participant Regression Test cycle is between 13 April 2026 – 29 April 2026.
- Test Signoff must be sent to the JSE by emailing commodities@jse.co.za by close of business on 29 April 2026.
- Test scenario guidelines and sign off checklist are attached for further details

Functional and Regression Testing

All automated trading solutions, high frequency trading, and own solution development firms are mandated to test during the scheduled participant test cycle to ensure successful conformance and implementation.
