CISCO SWITCH REFRESH OF COLOCATION, TRADING, RTC AND CTS ENVIRONMENTS

Clients are advised that we are in the planning phase of the Cisco Switch refresh for the following environments: Colocation, Trading, CTS and RTC. The refresh project is scheduled for October 2025.

The JSE Team will be preparing the hardware in advance to implement the new ultra-low latency switches over one weekend. It will be mandatory for all clients to conduct technical connectivity tests to prove a successful connection to ensure that seamless refreshing of hardware has been achieved.

Kindly note that migration and testing will commence in the month of October. The actual implementation date will be announced in due course following JSE Change Advisory Board Approval.
