ENHANCEMENT TO THE PROPERTY INDICES MARKET DATA PRODUCT SET

In support of the introduction of a number of Property Indices, the JSE made a set of market data products (Constituents, Tracker and Valuations) available in the late part of 2017.

The Property Indices are as follows:

Index Code	Index Name
J800	FTSE/JSE Tradable Property Index
J803	FTSE/JSE SA All Property Index
J805	FTSE/JSE SA REIT Index

In the interest of early availability, the JSE decided to provide the market data files in the original FTSE file format.

In the interest of providing choice, we are now also able to provide the same data in the fixed width data record format. These new data record based products provide the same data as the CSV format, but also include Alpha Code and the Earnings Yield fields.

If you are interested in subscribing to the fixed width format data records, or would like further information, contact your market data account manager or send an email to mdclients@jse.co.za.

Service:

FTSE/JSE Africa Indices Data Products

Environment(s):

Production
