

## SERVICE HOTLINE

**Number:** 107/2024  
**Date:** 30 July 2024

**Name and Surname:** Martin Koch  
**Designation:** Head - Trading Operations

### JSE RELEASE 7.7 – MIT UPGRADE CTS RELEASE AND PRODUCTION GO-LIVE DATES

This Service Hotline refers to [Service Hotline 047/2024](#) and [080/2024](#) as previously published and provides further details relating to Release 7.7 (MIT Upgrade 2024).

Clients are reminded that the new code is currently deployed into the JSE test environment, CTS Release (formerly CTS 2A).

Kindly note that the Go-Live date for production has been updated and will be effective on **Monday, 14 October 2024**. The code will be deployed in production on **Saturday, 12 October 2024** and the system will be available for the remainder of the day for any testing, which is highly encouraged.

We apologise for the confusion and change in dates, however, we feel that it would be prudent to allow the change into the environment earlier in the year and keep **2 November 2024** as a contingency date.

The summary of the release can be found on the JSE Client Portal under the Technical Library as well as the updated APIs here: <https://clientportal.jse.co.za/technical-library/trading-and-market-data-documentation>

We thank you for your co-operation.
