JSE

SERVICE HOTLINE

REFERENCE NUMBER 112/2014

18 June 2014

Information Delivery Portal – Enhancement of security protocol for End of Day dissemination file access update

Further to service hotline **101/2014** the JSE would like to provide clients with an update. The JSE has received numerous requests from clients requesting additional testing time which has resulted in the JSE postponing the **connectivity test to Saturday, 5 July 2014.** Clients are able to connect to **TLS versions 1.1 and above** prior to the scheduled testing date, following which on **Saturday, 5 July 2014,** we will disable depreciated versions TLS 1.0 and below.

The **connectivity test** for all **impacted clients** will be **on Saturday morning, 5 July 2014** and the **go live on Monday, 7 July 2014.** Clients wishing to participate in this test **must notify *Customer Support*** on CustomerSupport@jse.co.za or +27 11 520 7777 **by no later than Friday, 27 June 2014**. Please provide contacts details of the team involved in the test when making your booking.

The updated IDP Connectivity document is available and includes tracked changes to assist clients in identifying the changes being introduced. For convenience, following is the link to the updated document:-
