BDA User sign-on's

As part of the JSE auditor's requirement regarding access to the BDA system, user sign-on's that are inactive and have not been used by users within a six month period must be deleted. We do understand and appreciate that each sign-on has very specific BDA access within each member firm and providing this access is a time consuming process for members. In order for the JSE to comply with the auditors request we will be implementing the following procedure with immediate effect:

- Members will be provided with a list of inactive user sign-on's in January and June on a yearly basis
- Members will have 5 business days in which they need to activate the sign-on by logging into BDA
- After 5 business days have elapsed any sign-on/s still inactive for longer than 6 months will automatically de-activated
- A new report can be provided to members upon request

Thanking you for your understanding in this regard.
