### INTEGRATED TRADING AND CLEARING PROJECT (ITaC) 1B/C: CUSTOMER TESTING ENVIRONMENT (CTS) GO-LIVE FOR TRADING

This notice serves to inform market participants that the new Trading CTS environment for ITaC 1b/c is available for clients from Monday, 27 June 2016. The ITaC 1b/c project enables clients to connect to the new trading and information system for the Derivative Markets.

Connectivity and use of the environment will take place in a phased approach:

- From 27 June 2016 the Trading CTS environment will be available for connectivity setup. At this stage the JSE will not support API queries specific to the environment.
- IP Addresses are available upon request from the JSE Client Support Centre (CSC)
- By 4 July 2016 Sample Reference Data files will be placed on the JSE IDP site.
- Enablement details and IDP site location for interested clients will be made available through the current enablement process by contacting the JSE CSC.
- Details about the Clearing CTS environment to follow in due course.

Access to the new ITaC 1b/c CTS environment will be provided at no additional cost until further notice.
