REVIEW OF LIVE CONNECTIVITY TEST (LCON) PROCESS

Introduction:

The current Live Connectivity Process has been around for many years and proved to be quite successful. LCON's were only conducted on Thursdays between 18:00 – 20:00 or on a Participant Test Weekend (PTW).

This did bring about challenges where urgent changes were required to be implemented.

As part of our effort to provide more efficient services to our clients we have now introduced the concept of an unsupported LCON which can be conducted from Monday - Friday between 06:30 (SAST) and 19:00 (SAST).

The current supported LCON on Thursdays will remain and follow the normal LCON booking process.

We have also made changes to the LCON requirements which are detailed in the LCON process document attached.

This document can also be found via the following link:

<https://www.jse.co.za/services/technologies/equity-market-trading-and-information-technology-change>

This new process will take effect from Monday, 18 July 2016.
