FTJSE/JSE End of Day Indices: Technical Issue experienced on the SI.zip EOD file for 18 August 2014 Update

Clients are to take note of a technical issue experienced last night with the SI.zip file.

The problem was a typographical error in the configuration for the changed Record Type DDC01. Instead of DDC01 the configuration stipulated DQC01, this caused the DQC01 Record Type to have a duplicate configuration item

Please note that the issue has been resolved and the SI.zip has been re-issued.

The JSE apologizes for the inconvenience caused.

Market / Service:
JSE Indices End of Day Dissemination

Environment(s):
Production
