INTEGRATED TRADING AND CLEARING (ITaC) – INTERNAL JSE TESTING IN THE PRODUCTION ENVIRONMENTS

Clients are advised that in preparation for the ITaC market facing dress rehearsals later this year, the JSE will be conducting **internal testing in the production environments** on **Saturday, 16 September 2017**. During this test the JSE trading, live market data and post-trade deal management and clearing systems for **all markets** will be brought up and test data may be published to clients.

Clients who directly connect to the JSE are **therefore requested** to ensure that their **production systems are shut down** so that they do not receive and process any test messages generated during the tests.

Should you experience any problems over the weekend, please contact the Client Service Centre (CSC) team on +27 11 520 7777 or via email at customersupport@jse.co.za.

Service:

JSE Equity Market

JSE Derivative Markets

- Bond Derivatives
- Equity Derivatives
