## DEACTIVATION AND TERMINATION OF USER ACCOUNTS WITHIN THE DERIVATIVES MARKET

The JSE uses a formal, approved process to grant registered officers, traders and back office users access to the Nutron application via a User Account, referred to as a **Nutron Logon ID**. As part of the JSE's Identity and Access Governance principles, user accounts should only exist for as long as strictly necessary to prevent any information security risk.

As a risk mitigation measure it is therefore necessary that with effect from 9 October 2017:

- any Nutron Logon ID's that have not been used for three months will be disabled/deactivated on the relevant JSE systems and;
- any Nutron Logon ID's that have not been used for six months will be terminated on the relevant JSE systems.

Disabled/deactivated Logon ID's can be enabled again on request, but terminated Logon ID's are deleted and must be recreated in the same way a new Logon would be.

### Market/s:

JSE Equity Market  
JSE Derivative Markets
