UPGRADE TO THE COMMODITY DERIVATIVES NUTRON TRADING SYSTEM 2017 – API CHANGES DELAYED

Clients are referred to Service Hotline 133/2017 regarding the upgrade to the Commodity Derivatives Nutron trading system. The Go-Live date for the deployment of the upgrade on the Commodity Derivatives Nutron trading system has been postponed. The upgrade included changes to accommodate the new deliverable diesel contract.

The JSE has taken the decision to postpone this release to afford the market more time to prepare for ITaC 1b release. The planned upgrade will commence during the first quarter of 2018 with a new Go-Live date to be communicated at a later stage.

Market / Service:

JSE Commodity Derivatives Market
