27 August 2020

IDP OPERATING SYSTEM UPGRADE – EFFECTIVE 31 AUGUST 2020

With reference to hotline 171/2020 issued 22 July 2020 regarding the IDP Operating System Upgrade which was to be implemented effectively on 3 August 2020. We wish to inform you that the JSE had to unfortunately not go through with the implementation due to various reasons.

This hotline serves to inform you that we will be upgrading the primary IDP operating system with the implementation taking place on Saturday, 29 August 2020 and the changes will be effective on Monday, 31 August 2020.

All the necessary tests during and after the implementation will be done by the JSE technical and business teams to ensure that no issues are experienced on Monday, 31 August 2020.

As IDP will not be available for a period on Saturday, 29 August 2020, we kindly request that you download all your subscribed data products on Friday, 28 August 2020 to avoid any inconvenience.

Post the implementation you will not be required to test connectivity as the upgrade will have no impact to the way you access the IDP.
