## NEW DLL FOR SUB ACCOUNT MODIFY FUNCTIONALITY

The JSE encountered an issue with the JSE Interest Rate Derivatives sub account modify functionality on the Nutron Trading Frontend.

When performing a sub account modify deal management function on yield traded instruments, the format of the input field is defaulted to a price format and not a yield format.

DLL files have been made available to correctly default the instruments value to a yield format and not a price format.

We encourage all Interest Rate Derivative dealers' who use sub accounts to download the following DLL and save it into their running directory:  
<https://www.jse.co.za/content/Downloads/sxhndglob.zip>

### Market/s:

JSE Interest Rate Derivatives Market

### Environment(s):

Production
