INTEGRATED TRADING AND CLEARING (ITaC) - DRESS REHEARSAL TESTING IN PRODUCTION ENVIRONMENT ON 21 OCTOBER 2017

Clients are advised that the JSE will be conducting an **ITaC dress rehearsal with clients in the production environments** on **Saturday, 21 October 2017**. During this test the JSE trading, live market data and post-trade deal management and clearing systems for **all markets** will be brought up and test data may be published to clients.

Clients who directly connect to the JSE that are not participating in the dress rehearsal are **therefore requested** to ensure that their **production systems are shut down** so that they do not receive and process any test messages generated during the tests.

This dress rehearsal is mandatory for all software providers and their Host-to-Host clients as well as own solution developers that have developed solutions to connect directly to the JSE ITaC Equity Derivatives (Project 1b) and Currency Derivatives (Project 1c) markets.

Should you experience any problems over the weekend, please contact the Client Service Centre (CSC) team on +27 11 520 7777 or via email at CustomerSupport@jse.co.za.

Service:

JSE Equity Market
