JSE EXCHANGE TEST WEEKEND (ETW) 4 November 2017

The JSE has planned routine network maintenance on Saturday, 4 November 2017. This will affect all member firms for all JSE markets as well as Live and End of Day Information Subscribers for all JSE market data products.

The Equity Market and Derivative Markets trading systems will be started up on **Saturday, 4 November 2017**, for the duration of the day, so that the JSE can prove the success of the change. The JSE does **not** require clients to participate in this change. However, clients must ensure that their production systems are **shut down** prior to the systems start-up (preferably the evening before the scheduled change), to ensure that they do not receive and process any test data.

The JSE appreciates your co-operation in this regard.

Market/s:

JSE Equity Market

JSE Derivative Markets

- Equity Derivatives
- Interest Rate and Currency Derivatives
- Commodity Derivatives

Environment(s):

Production
