JSE MAINFRAME MIGRATION – BDA

We have embarked on a project to move the JSE mainframe from Midrand to our data centre onsite. The project will require some involvement from stakeholders but is largely internal. Please note the following:

- JSE will conduct full internal regression testing;
- System Integration Testing (SIT) is anticipated with external stakeholders such as Strate;
- User Acceptance Testing (UAT) will take place between the JSE, Members, Strate and CSDPs;
- Two mandatory Market Facing Dress Rehearsals with JSE Members and service providers planned per dates below.

The expected time of stakeholder involvement including Strate, JSE Members and the CSDPs for User Acceptance Testing (UAT), is from 25 January 2021 to 5 March 2021.

JSE Members will be required to participate in three Dress Rehearsals, the first **non-mandatory** which will take place on 14 November 2020. During Dress Rehearsals Members are required to test:

- Connectivity to the mainframe;
- Logging onto BDA, B5ACICS;
- Couple of functional tests e.g. a Journal, Cash payment or DLPRE;
- Downloading BDA files;
- Uploading BDA files;
- Re-spool for ERD Reports.

We request members who want to participate 14 November 2020 to inform CSC.

The second and third **mandatory** Dress Rehearsal will take place on **23 January 2021** and **6 February 2021** respectively with go live expected on the weekend of 22 March 2021.

During the 3 Dress Rehearsals the BDA on-line system will not be available.

We are planning a detailed client briefing during 2nd half of November 2020. Please look out for the invite with the webinar link.
