Equity Market Trading and Information System – Participant Test Weekend (PTW) 15 February 2014

As per JSE Service Hotline 194/2013 issued 29 November 2013, clients are reminded that this coming weekend, Saturday, 15 February 2014, has been made available as a Participant Test Weekend (PTW) in the production environment. During this test the JSE Equity Market Trading and Information System will be brought up and test data will be published.

In addition, **testing is being conducted in the Derivative markets alongside the PTW** as part of the key market facing dates for Colocation. Test data may be generated during this test.

All clients **NOT** participating in the PTW or the Derivative market tests, are requested to ensure that their productions are **systems are shut down** during the weekend to ensure that they **do not receive and process any test messages** published during the test.

Please contact Customer Support on +27 11 520 7777 for any further queries.

Service:

- Equity Market

Environment(s):

- Production
