

SERVICE HOTLINE

REFERENCE NUMBER: 225/2019

15 October 2019

UPDATE ON THE COMMODITY DERIVATIVES NUTRON TRADING SYSTEM 2019 UPGRADE

Subsequent to Service Hotline 216/2019 of 3 October 2019, this hotline serves to provide an update on the Commodity Derivatives Nutron trading system upgrade.

The JSE will be introducing the code into the CTS environment on Tuesday, 15 October 2019. Clients will be able to commence with testing from Wednesday, 16 October 2019.

As previously communicated, testing will only be conducted on the API changes related to the production fixes. The Diesel changes will only be made available at a later stage and this will be communicated in due course.

The API changes for the Commodity Derivatives Market are as follows:

- Mutual Market Access (Removed)
 - Page 46, section 4.17
- Output Messages
 - Page 105, Section 8.4 - Number 125
 - Added New Fields:
 - Market Shard Number
 - Updated error message description

Service:

JSE Commodity Derivatives Market

Environment(s):

Production
