**REFERENCE NUMBER: 228/2016**

28 October 2016

### UPDATED POST-TRADE SERVICES DOCUMENTATION AND CTS ENVIRONMENT FOR THE INTEGRATED TRADING AND CLEARING (ITaC) PROJECT

Clients are advised that updates to the ITaC Post-trade Services Documentation have been published and are available for download. These documents form part of the JSE Services Documentation.

Post-trade Services Documentation includes the deal management and clearing/settlement functionality available for the Equity Derivatives and Currency Derivatives markets when they migrate to the real time Cinnober clearing and settlement system as part of ITaC Project 1b and 1c. Documents have been updated using tracked changes so that clients can easily identify the changes.

To align to the updated specification documents issued, clients are advised that the Post-trade CTS environment is being upgraded to RTC Release 1.11.0. The Post-trade CTS environment is currently down for maintenance. Normal service for Post-trade CTS will resume on Monday, 31 Oct 2016.

Please **see overleaf** for the Services Documentation updates being released on Friday.

The updated documents can be accessed at the following link:  
<https://www.jse.co.za/services/itac>

A reminder of the ITaC Project high level timeline:-

- **ITaC Project 1a** - Equity Market upgrade and enhancements successfully went live 26 September 2016
- **ITaC Project 1b** - Equity Derivatives migration to new trading and clearing systems go live during Q2/Q3 2017
- **ITaC Project 1c** - Currency Derivatives migration to new trading and clearing systems will follow approximately 2 months after project 1b
