JSE COLOCATION FIREWALL UPGRADE 11 NOVEMBER 2017

On Saturday, 11 November 2017 the JSE has planned to test the implementation of a colocation firewall as part of the ITaC dress rehearsal. This will affect all clients for all JSE markets connecting from the JSE Colocation site.

The JSE **highly recommends** that any Colocation clients participate in the ITaC dress rehearsal for this change as well as other ITaC connectivity and functionality testing.

The Equity and Derivative Markets trading systems will be started up on **Saturday, 11 November 2017**, for the duration of the day, so that the JSE can prove the success of the change.

The JSE appreciates your co-operation in this regard.

Market/s:

JSE Equity Market

JSE Derivative Markets

- Equity Derivatives
- Interest Rate and Currency Derivatives
- Commodity Derivatives

Environment(s):

Production
