Equity Market Trading and Information System – Internal Testing 2 March 2013

Clients are advised that this coming weekend, Saturday, 2 March 2013, the JSE is conducting some internal testing in the production environment. During this test the JSE Equity Market Trading and Information System will be brought up and test data will be published.

All clients are requested to ensure that their Equity Market Trading and Information **systems are shut down** during the weekend to ensure that they **do not receive and process any test messages published during the test.**

Please contact Customer Support on +27 11 520 7777 for any further queries.

Service:

- Equity Market Trading and Information Solution

Environment(s):

- Production
