REPORTED OPTION TRADES NOT SENT TO MARKET – 22 OCTOBER 2020

Further to Service Hotline 236/2020, we notified the market of an isolated incident resulting in some reported option trades not disseminated via the public market data feed on the Equity Derivatives Market (EDM).

We have since tested a fix and are in the final stages of regression testing before deploying into production on Friday evening 30 October 2020. The fix will take effect on Monday, 2 November 2020.

We will provide a further update once successful deployment is complete.
