SERVICE HOTLINE

REFERENCE NUMBER: 252/2020

13 November 2020

JSE TRADING AND INFORMATION SYSTEM

This notice relates to Service Hotline 235/2020 sent on 20 October 2020 and serves to remind market participants of the updates to the Services Documentation related to the next functional release, applicable to the Equity, Equity Derivatives and Currency Derivatives Markets

Please note; previously it was communicated that the changes would be deployed to the Customer Test environment on Monday, 2 November 2020 unfortunately the delays in preparing the testing environment has pushed this date out. Once all is ready to deploy the latest code into CTS2A (formally known as CTS1B), an additional hotline will be sent to the market.

Clients are encouraged to logon onto the environment to prove connectivity. A reminder that the same IP Addresses that are used in CTS1A will be re-used for CTS2A with the port off-set of 20,000 applicable for CTS1A and 40,000 applicable for CTS2A.

The API and information documents have been updated and are available at the following link: <https://www.jse.co.za/services/itac>

For detailed information relating to the scope of this release, please refer to the JSE Trading Release Document available on the JSE website under "Next Functional Release" in the "Services Documentation" section at the following link:

<http://www.jse.co.za/services/itac>

The implementation date for Production is still to be determined and will be communicated in due course. Please note that this is subject to market readiness and any major issues that may arise.

Please refer all API Specification and connectivity related queries to CustomerSupport@jse.co.za for assistance.
