### JSE MAINFRAME MIGRATION (BDA) – UAT IP ADDRESS

Further to Service Hotline 221/2020 whereby we communicated the mainframe migration to JSE's own data center, we remind you of User Acceptance Testing (UAT) scheduled for 25 January 2021 to 5 March 2021.

UAT will involve Strate, JSE Members and the CSDPs with member involvement limited to monitoring JSE testing only.

In order to access the UAT environment, please enable IP address: [196.216.152.162](#) and note that this IP address does not replace access to the current mainframe required for daily operations.

In addition, please provide a list of LUs and sign-ons of staff requiring access to the UAT mainframe environment. Members that are clients of a CSP may opt for the CSP to monitor testing on their behalf but will be required to sign off test certificates.

Please follow the attached guide to save the new mainframe icon and for ease of testing, we recommend changing the color of the display to reduce confusion between production and UAT mainframe.

Kindly provide Customer Support with LU and sign-on information.

#### Markets / Services:

JSE Equity Market

#### Environment(s):

Production

#### Additional Information:

If you have any queries about this announcement, please contact the Client Service Centre on +27 11 520 7777 or e-mail [Customersupport@jse.co.za](mailto:Customersupport@jse.co.za)
