Service Hotline

JSE Production - 22 February 2014 - Test Schedule and activities

Further to Service Hotline 21413 issued 30 December 2013, clients are reminded of the JSE production changes and testing scheduled for Saturday, 22 February 2014.

The changes scheduled for **22 February 2014** are key activities of the **JSE Colocation Project** and include the following:-

Production Date: 22 February 2014
Contingency Date: 1 March 2014

Equity Market Trading System **Upgrade** for New Gateways (software deployment only)

Equity Market
- All Equity Market
Clients for
connectivity tests

Note: Clients are **NOT** required to make any changes to their systems or environments. **Test data will be generated and published during the test**. Should the activities on 22 February 2014 be unsuccessful, the contingency date to complete these changes is 1 March 2014.

All **End of day and BDA Dissemination** subscribers will **not be impacted** by this change.

Mandatory Market Testing Required

This is change will prepare the Equity Market Trading and Information system for Colocation. Due to the **complexity** of this change, the JSE strongly recommends that clients participate to confirm their connectivity, flow of multicast data as well as order and trade confirmations. This includes **all clients who connect directly** to the JSE. Client testing will be performed between 08h30 - 10h00 SAST.

Clients must please **forward their key contact details** for the test to <u>EMAccMan@jse.co.za</u> or +27 (0)11 520 7211 <u>by no later than</u> close of business on **Wednesday**, **19 February 2014**.

Please refer all gueries to Customer Support on +27 11 520 7777.

Markets / Service (s):

Equity Market

Environment(s):

Production
