EQUITY MARKET START DELAYED

The JSE would like to provide feedback on the technical issues experienced resulting in a delayed startup of the Equity Market on the 27th of December 2017.

As part of the preparation activities for the ITaC 1b & c project implementation, a calendar for the derivative markets has been implemented in the production system. This calendar will only be fully operational on the ITaC trading system when the ITaC project goes live in May 2018; however, its creation caused the system to start up with the incorrect date. This calendar has now been updated to align it to the Equity Market calendar.

We apologise for any inconvenience this may have caused.

Market / Service:

JSE Equity Market

Environment(s):

Production
