Service Hotline

BDA Loading of Reports.

Members are advised that Laser Facilities is no longer a service provider for the hard copy printing of BDA reports. It is therefore advised, when loading reports on BDA **RPROC**, that members use the output destination **ELEC** for the creation of electronic reports only.

Members are herewith also advised that for any reports that are already loaded with the output destination as **LOCAL**, which was used to print reports at Laser, to now change the output destination to **ELEC**.

We thank you for your co-operation.

Service (s):

- BDA

Environment(s):

- Production
