Service Hotline

JSE Services Documentation – Final Colocation Services Order Form (CSOF)

Further to Service Hotline 13/14 issued 3 February 2014, clients are advised that the **final** version of the **Colocation Services Order Form (CSOF)** v1.0 is now available for perusal at the following link.

http://www.jse.co.za/Documents-and-Presentations/JseColocation/Colocation.aspx#services

Once clients have all their information available that is required on the order form, they must complete the order form and return this to Customer Support for processing. The JSE will generate the Colocation Services Order Form (CSOF) with the information provided and request signoff from clients on the CSOF. Signed off CSOFs can then be used to book a Client Take-on rack and stack date in Colocation. The JSE will commence Client Take-on in Colocation from 1 March 2014.

Using the IP address information provided on the confirmed CSOF, clients can then commence their enablement requests for the JSE services they wish to subscribe to from Colocation.

Please contact Customer Support if you have any queries on +27 11 520 7777.
