JSE Production - 2014 Key Market Facing Dates

1 March and 8 March 2014 – Market Facing **Tests Cancelled**

Further to Service Hotline 21413 issued 30 December 2013, clients are advised that the weekends of **1 March 2014 and the contingency of 8 March 2014**, were originally reserved as part of the key activities of the **JSE Colocation Project** as follows:-

Production Date: 1 March 2014 Contingency Date: 8 March 2014	
New CISCO 4500s implementation and Firewall upgrade to Production Network	All Markets - Selected Clients for connectivity tests Tests cancelled for 1 and 8 March 2014 – no longer required

However, all **JSE production changes** originally scheduled for Saturday, 1 March 2014 **were successfully completed ahead of schedule**, as part of the other Colocation activities conducted during February 2014.

In light of the above, clients are advised that **the market facing tests with clients for 1 March 2014 and the contingency of 8 March 2014 are no longer required and are cancelled**. The JSE will be use these weekends to conduct internal testing and no client participation is required.

The JSE would like to take this opportunity to thank all of our clients for their assistance and support with the testing conducted to-date, we could not have achieved our objectives and milestones without your participation.
