UPDATE REGARDING INCORRECT STATISTICS IN JSE END OF DAY DATA FILES

The JSE thanks you for your patience, and is pleased to announce that the statistics problems have all been addressed and the data has been checked.

Client specific E.zip and I.zip files have been recreated for 10, 11 and 12 March that now include corrected statistics for the data fields listed in market notice 31/2015.

For the convenience of clients, the revised data files have been placed on the JSE IDP server, replacing the files that were previously provided and suffixed with the relevant date where appropriate.

Service:

End of Day Dissemination

Environment(s):

Production
