**REFERENCE NUMBER:** 34/2018

14 February 2018

### REPLACEMENT OF JSE POP SOLUTION - MIGRATION CUT-OFF END DATE EXTENDED TO 30 APRIL 2018

A number of Extranet Service Providers and existing PoP clients have raised concerns to the JSE about the time remaining to complete all the necessary activities in time for the migration cut-off end date of 31 March 2018.

PoP clients are very dependent on ESPs proving them with key information about their solutions and for ESPs to be technically ready that allows enough time for PoP clients to migrate via their preferred ESP.

The JSE has seriously considered the situation and representations and has decided, even though it will incur costs, that in the interest of an orderly migration over to the new solution, to extend the migration period one very last time. **The migration cut-off date is revised to 30 April 2018 which provides one additional full month.**

**Further to this, in the interest of ensuring that PoP users have sufficient time, all ESPs must be technically ready with their solutions by 30 March 2018 (ESP Readiness date).**

Note that the ESP Readiness Date is the absolute latest date and ESPs must endeavour to ready their new solution as soon as possible, so as to allow the PoP users the maximum possible migration and testing time.

The JSE thanks you for your co-operation.

#### Market / Service:

JSE POP Service

#### Environment(s):

Production
