Equity Market Trading and Information System – Internal JSE Testing 6 April 2013

Clients are advised that this coming weekend Saturday, 6 April 2013, the JSE will be conducting some internal testing in the production environment. During this test the JSE Equity Market Trading and Information System will be brought up and test multicast data may be published to clients.

All clients are requested to ensure that their Equity Market Trading and Information **systems are shut down** in the production environment during the weekend to ensure that they **do not receive and process any test messages published during the test**.

Please contact Customer Support on +27 11 520 7777 if you have any queries.
