Service Hotline

JSE London Point of Presence (PoP) Migration to new international connectivity – Friday, 21 March 2014

Further to Service Hotline 21413 issued 30 December 2013, clients are reminded that this coming **Friday, 21 March 2014**, was reserved as part of the key activities of the **JSE Colocation Project** as follows:-

Production Date: Friday, 21 March 2014 Contingency Date: Saturday, 29 March 2014	
JSE London PoP migration	Equity Market - Mandatory for all JSE London PoP Clients (including direct real time information subscribers) to conduct connectivity tests only

Friday, 21 March 2014 is a non-business day in South Africa, therefore at **19h00 SAST (GMT+2) on Thursday evening, 20 March 2014**, prior to the final Equity Market Trading and Information system end of day batch procedures, the **JSE will migrate to the new international links**. Post the migration, the JSE and its service providers will conduct basic tests to confirm the flow of multicast market data heartbeats to the JSE London PoP.

Note: Clients are **NOT** required to make any changes to their systems or environments for this migration.

Test Schedule for **Friday, 21 March 2014**

04h20	Equity Market Trading and Information system will be brought up in a Start of Day (SOD) mode only . Multicast market data heartbeats and start of day reference data will be published to clients.
10h30 and 12h30 SAST (08h30 and 10h30 GMT)	All JSE London PoP clients (including direct real time information subscribers) must confirm the receipt of the multicast data for all Gateways they subscribe to. Clients will also be able to login or telnet to the Trading and or Recovery/Replay Gateways during this time. No test data can be generated. Clients must please notify Customer Support on +27 11 520 7777 or CustomerSupport@jse.co.za once your checks are completed.
12h30 SAST	JSE Go / No Go Decision to remain on new links or rollback communicated to clients

Please contact Customer Support on +27 11 520 7777 for any further queries.
