JSE TECHNOLOGY UPGRADE

The JSE is in the process of upgrading its network infrastructure used by Clients to connect to the Production and Disaster Recovery sites.

As a result of the upgrade, all connectivity to the JSE Client Access Network, excluding X21 and E1, will be affected and clients will be migrated to new routers between April and 30 June 2016.

We will communicate with affected clients prior to the migration to arrange testing. In order to minimise the impact to Clients, the JSE will undertake all migrations during:

- Thursday evening LCONS
- Participant Test Weekend (PTW) on a Saturday
- Exchange Test Weekend (ETW) on a Saturday

Should you require any additional information please contact customersupport@jse.co.za
