JSE NETWORK MAINTENANCE 2 APRIL 2016

The JSE has planned routine network maintenance on Saturday, 2 April 2016. This will affect all member firms of the JSE Equity market as well as Live Information Subscribers.

The Equity Market trading system will be started up on **Saturday, 2 April 2016**, for the duration of the day. The JSE does **not** require clients to participate in this change. However, clients must ensure that their production systems are **shut down** prior to the systems start-up (preferably the evening before the scheduled change), to ensure that they do not receive and process any test data.

The JSE appreciates your co-operation in this regard.

Market/s:

JSE Equity Market

Environment(s):

Production
