5 May 2015

### JSE Exchange Test Weekend (ETW) - Network Upgrade 9 and 10 May 2015

The JSE is planning to upgrade the Internetwork Operating System (IOS) of the core JSE Switches as part of an **Exchange Test Weekend (ETW)** scheduled for **Saturday, 9 and 10 May 2015** which will impact all trading and live data clients of the JSE Markets both through the Client Access Network and in the Colocation environment.

Please note that clients are **NOT** required to make any changes to their systems. All trading and live data clients **NOT** participating are requested to ensure that their **systems are shut down** during the weekend to ensure that they **do not receive and process any test messages** published during the test.

As per Service Hotline 218/14 published 19 November 2014, a reminder of the remaining **Exchange Test Weekends (ETWs)** for this year. Further details for these ETWs will be provided closer to the time.

| ETW Date  | Participation  |
|---|--|
| Saturday, 22 August 2015<br>Saturday, 19 September 2015<br>Saturday, 07 November 2015 | An Exchange Test Weekend (ETW) is a weekend during which the JSE can apply maintenance to the JSE production environment on a non-business day (normally a Saturday), that may impact client connectivity to the JSE or the JSE services for one or all of its markets.<br><br>Client participation could be <b>mandatory</b> for an ETW to assist the JSE in proving the maintenance has been successful. The JSE will notify clients in advance of the scheduled ETW what maintenance is being applied and the required market participation in the ETW. |
