JSE Services Documentation – Colocation Network Configuration Guidance Note

Clients are advised that a **new Colocation Network Configuration Guidance Note Document** is now available for perusal and forms part of the JSE Services Documentation.

This document provides clients who will be making use of the JSE Colocation Services, with high level guidance and sample configurations to apply when configuring and connecting their Hosting Unit in Colocation to the JSE Services they subscribe to.

The document is available at the following link:-
JSE Colocation Network Configuration Guidance Note

For additional information this document should be read in conjunction with the JSE Client Connectivity document as well as the JSE Colocation Services documentation.

Please refer all queries relating to this document to Colocation@jse.co.za.
