CAPAD ACCESS SECURITY UPGRADE – FEEDBACK REQUIRED BY 10 APRIL

We have enhanced the security for both the JSE CAPAD Portal and CAPAD Returns submissions Applications. As part of the upgrade we need to add configurations to users who require access to these portals. As part of the configuration updates we would like the opportunity to audit user access. Due to the sensitivity of the CAPAD data it is important that only users who should have access to this data are active on our system. All Compliance Officers are requested to send a list of the people that should have access to JSE CAPAD Portal and CAPAD Returns. These user lists must be sent to CAPADWeb@jse.co.za by 10 April 2017.

It is further important to note that it is the Compliance Officer's responsibility to ensure that the JSE is notified of movement of staff to enable them to deactivate user access where necessary. This ensures that the JSE can guarantee the safety of each client's data.
