CAPAD ACCESS SECURITY UPGRADE – FEEDBACK EXTENSION - 13 APRIL 2017

This notice serves as a reminder to provide feedback as per below of users that require access to below applications. Configuration changes will be implemented by the morning of Thursday, 20 April 2017 giving users the opportunity to verify their access prior to the next Return Submission date. Any users that have not been verified will not be able to access either of below applications. If you have already sent a verification of access but have not received acknowledgement of your mail, please re-send your verification.

We have enhanced the security for both the JSE CAPAD Portal and CAPAD Returns submissions Application. As part of the upgrade we need to make configuration changes to users who require access to these portals. As part of the configuration changes we would like to take the opportunity to audit user access at the same time. Due to the sensitivity of the CAPAD data it is important that only users who should have access to this data are active on our systems. All Compliance Officers are requested to send a list of the people that should have access to JSE CAPAD Portal and CAPAD Returns. These user lists must be sent to CAPADWeb@jse.co.za by 13 April 2017. If it is a new employee that requires access, please also submit the following information:

Full name/s
Surname
E-mail address
Direct landline number
Cell number
ID number
Address for place of business

It is further important to note that it is the Compliance Officer's responsibility to ensure that the JSE is notified of movement of staff to enable them to deactivate user access where necessary. This ensures that the JSE can guarantee the safety of each client's data.

Market / Service:

JSE Equity Market

Environment(s):

Production

Additional Information:
