### CAPAD ACCESS SECURITY UPGRADE – IMPLEMENTATION 20 APRIL 2017

This notice serves as a reminder that configuration changes will be implemented on Thursday, 20 April 2017 for security upgrades as explained below. All users are requested to login to verify that their access is configured correctly prior to the next CAPAD submission date to avoid delays. Compliance officers are reminded that users that have not been verified will not be able to access either of below applications. If you have already sent a verification of access but have not received acknowledgement of your mail, please re-send your verification. We would like to thank the brokers that have provided confirmation of their users.

We have enhanced the security for both the JSE CAPAD Portal and CAPAD Returns submissions Application. As part of the upgrade configuration changes need to be applied to users who require access to these portals. We are taking this opportunity to audit user access and request that Compliance Officers who have not yet confirmed their users to please do so. Due to the sensitivity of the CAPAD data it is important that only users who should have access to this data are active on our systems. All Compliance Officers are requested to send a list of the people that should have access to JSE CAPAD Portal and CAPAD Returns to [CAPADWeb@jse.co.za](mailto:CAPADWeb@jse.co.za). If it is an employee that previously did not have access, please also submit the following information:

Full name/s  
Surname  
E-mail address  
Direct landline number  
Cell number  
ID number  
Address for place of business

It is further important to note that it is the Compliance Officer's responsibility to ensure that the JSE is notified of movement of staff to enable them to deactivate user access where necessary. This way the JSE can guarantee the safety of each client's data.

#### Market / Service:

JSE Equity Market

#### Environment(s):

Production
