JSE TECHNOLOGY UPGRADE – 21 MAY 2016

As per previous hotline 4916 sent out on 18 March 2016, the JSE is in the process of upgrading its network infrastructure used by clients to connect to the Production and Disaster Recovery sites.

This weekend (21 May 2016) we will be migrating the following network providers MPLS solutions

- MTN
- Internet Solutions
- Neotel
- EOH

No changes are required from your perspective and in order for the test to be successful we require the following to be confirmed

- TCP/IP Connection to respective Service
- Logon to respective service

If you would like to participate in this weekend's test may you please provide us with the below details of both your primary and secondary contact for the test

- Contact Person Name & Surname
- Telephone Number (Landline & Mobile)
- E-mail

If you have already confirmed participation and provided us with the necessary details, thank you for the information.

Clients who are not participating in this weekend's test must ensure that their production systems are shut down prior to the systems start-up (preferably the evening before the scheduled change), to ensure that they do not receive and process any test data.

The JSE appreciates your co-operation in this regard.
