Indices Market – FTSE / JSE All Africa and IBI Indices decimal length changes

Clients are to take note of the below changes.

Currently the All Africa and IBI Indices; TRI and Capital Index Values cater only for 2 decimal values.

The JSE has decided to make a change to improve accuracy of these values by increasing the number of decimal values to 8. The EOD day records will truncate these values to 6 decimal characters as the allowed by the current file character length.

Please note that there are no layout changes.

Please note that these changes will be effective from the 29th May 2014.
