## SERVICE HOTLINE

**REFERENCE NUMBER:** 005/2021

13 January 2020

### AVAILABILITY OF DEMO VERSION OF NEW JSE MARKET DATA CONNECT PORTAL

If your company reports variable numbers to the JSE, this hotline is especially pertinent, and serves to remind that the demo client portal is available.

Hotline 281/2020, issued on 17 December 2020 after the two info sessions on 2-3 December, informed you that the Market Data team will be introducing an internet and cloud based solution that will allow you to engage with us in a more self-service manner on data product subscriptions, licensing and reporting and which will extend to electronic agreements and digital signing.

The solution, branded as **JSE Market Data Connect** will be provided, hosted and maintained by DataBP, an industry leading provider of market data administration solutions, and customised to meet the needs of the market data team and clients.

The solution will be implemented in phases with phase 1 only involving and benefiting clients that are obliged to report variable numbers to the JSE while phase 2 will involve and benefit all clients. Phase 1 will lead to the replacement of the JSE's Market Data Portal that clients currently use for reporting. **Phase 1 is provisionally planned to be implemented at the end of March 2021.**

The hotline further informed you that we would be making a demo version of the Client Portal available up to mid-March 2021 to support your education and training needs. **We would like to remind you that the demo version is available for your use.** It is crucial that all designated reporters at your company are familiar before the cutover with the relevant functionality by requesting access to it and actively exploring and practicing. Access will be arranged by either emailing [mdsupport@jse.co.za](mailto:mdsupport@jse.co.za) or via your JSE Market Data Account Manager. The demo version will present your company specific data for a near-production experience.

Click on this [Session Recording](#) link or refer to the attached presentation used for the two Info sessions held on 2-3 December for information about the entire project and phase 1 specifically.

If you have any questions or concerns, send an email to [mdclients@jse.co.za](mailto:mdclients@jse.co.za) or to your JSE Market Data Account Manager.

#### Market / Service:

JSE Market Data Services

#### Environment(s):

Production
