JSE TRADING AND INFORMATION SYSTEM UPGRADE – RELEASE 7.5

Further to [Service Hotline 154/2022](#), [Service Hotline 165/2022](#) and [Service Hotline 007/2023](#) published on 2 November 2022, 1 December 2022 and 20 January 2023 respectively, the JSE would like to inform members that the MIT release 7.5 to the Equity, Equity Derivative and Currency Derivative Markets has been postponed to Q2 2023.

The go-live date will be confirmed, and further details will be communicated in due course.

The functionality is already in the CTS Release environment for client testing.

The changes included in this release have no API changes and as such do not require mandatory conformance testing.

This release will include the following as well as some bug fixes:

1. Suspension Across Order Books (impacts all markets)
 - This is new functionality to ensure that the suspension of an instrument from the normal order book cascades to all books
 - Process changes internal to JSE
 - Testing is encouraged
2. Restrictions on User Created Option (Impacts all markets)
 - Not all instruments should have Options traded on them. This functionality will ensure that Options created on instruments are valid before they enter the trading engine
 - Process changes internal to JSE
 - Testing is encouraged

For detailed information pertaining to this release, please refer to the JSE Trading Release Documents available on the JSE website under “Next Functional Release” in the “Services Documentation” section at the following link:
